# Cultural Affairs Capital

## Mission Statement

The Iowa Department of Cultural Affairs provides leadership and direction to the Iowa Arts Council, the State Historical Society of Iowa, and their constituents. The Department encourages collaborative partnerships between cultural organizations for the benefit of all Iowans.

## Description

The Department of Cultural Affairs has primary responsibility for development of the State's interest in the areas of the arts, history, and other cultural matters. In fulfilling this responsibility, the department is advised and assisted by its two divisions: the State Historical Society of Iowa and its board of trustees, and the Iowa Arts Council.

## Battle Flags

### Rebuild Iowa Infrastructure Fund

### Appropriation Description

The State Historical Society of Iowa is required by 303.2(k) of the Code of Iowa to administer, preserve, and interpret the battle flag collection assembled by

the state in consultation and coordination with the commission of veterans affairs and the department of administrative services.

### Appropriation Goal

This appropriation provides continued stabilization and preservation services for the State's battle flags.

# Human Services Capital

## Mission Statement

The Mission of the Iowa Department of Human Services is to help individuals and families achieve safe, stable, self-sufficient, and healthy lives, thereby contributing to the economic growth of the state. We do this by keeping a customer focus, striving for excellence, sound stewardship of state resources, maximizing the use of federal funding and leveraging opportunities, and by working with our public and private partners to achieve results.

## Description

The Iowa Department of Human Services is a public expression of Iowa's desire for a stronger community. Working cooperatively with others, the Department of Human Services meets the unique needs of individuals who are experiencing personal, economic, social or health problems. The primary responsibilities of the department are to help and empower individuals and families to become increasingly self-sufficient and productive, and to strive to improve the well-being of all the people of the State of Iowa.

## DNR-Destination Park

### Tax-Exempt Bonds Proceeds Rest

#### Appropriation Description

Destination Park appropriation out of fund 0198 provides for the planning, design, and construction of Iowa's first destination state park on Rathbun Lake in Appanoose County. Facilities on the 850-acre site will include a lodge/conference/ restaurant facility, family cabins, upscale RV campground, 18-hole golf course and clubhouse, picnic areas, trails, beach, docking facilities, and a footbridge to link the

existing Honey Creek State Park to the new resort complex.

#### Appropriation Goal

Provide for the planning, design, and construction of Iowa's first "destination" state park on Rathbun Lake in Appanoose County. Facilities on the 850-acre site will include a lodge/conference/restaurant facility, family cabins, upscale RV campground, 18-hole golf course and clubhouse, picnic areas, hiking/biking/equestrian trails, beach, docking facilities and a foot bridge to link the existing Honey Creek State Park to the new resort complex.

## GIS Information for Watershed

Environment First Fund

### Appropriation Description

GIS Information for Watershed Managers (Fund

0295, 003H) this appropriation provides for the development of geographic information system (GIS) data that will be used by local groups to determine the most effective strategies for addressing non point source pollution problems. Basic statewide informa-

tion such as watershed boundaries, land cover, drainage districts, soil erosion, and sediment delivery models will be used to identify and prioritize critical areas, and allow more effective targeting of resources for water quality improvements.

### Appropriation Goal

Provide local watershed managers with information concerning the location of environmental facilities as well as environmental conditions. This should provide local officials valuable information which can be used when making land use and other area planning decisions.

## Water Quality Monitoring

### Environment First Fund

#### Appropriation Description

Water Quality Monitoring (Fund 0295, 004H) Iowa has over 72,000 miles of streams, 184 lakes, six major groundwater aquifer systems, and 125,000 acres of wetlands. These resources must support domestic consumption, commercial and industrial usage, recreational activities, and a diverse biotic environment. In short, our water resources are essential to sustain economic growth and provide a place where people want to live. This appropriation

provides funding for a water quality monitoring improvement plan.

#### Appropriation Goal

Iowa has over 72,000 miles of streams, 184 lakes, six major groundwater aquifer systems and 125,000 acres of wetlands. These resources must support domestic consumption, commercial and industrial usage, recreational activities, and a diverse biotic environment. In short, our water resources are essential to sustain economic growth and provide a place where people want to live. This appropriation provides funding for a water monitoring improvement plan.

### Volunteers and Keepers of Land

#### Environment First Fund

#### Appropriation Description

Volunteers and Keepers of the Land (Fund 0295) appropriation is used to leverage federal AmeriCorps funding for the development and expansion of a comprehensive statewide volunteer effort.

### Appropriation Goal

The Keepers of the Land volunteer appropriation is to be used for establishment of a comprehensive department wide volunteer effort. In this era of scarce resources, volunteerism is a potential source of resources with little cost. Up until recently, the department's volunteer efforts have been on a hit and miss basis. This appropriation is expected to result in a return on investment of 4 to 1.

## Marine Fuel Tax Projects

### Environment First Fund

### Appropriation Description

Marine Fuel Tax (Fund 0295 040H) This appropriation is to be used for boating related capital projects. Priorities include providing for renovations and improvements to boat accesses, ramps, and parking areas statewide; providing for shoreline protection and lake control and outlet structure maintenance at various lake areas throughout the state; providing for local cost sharing grants for the installation of boating access facilities.

### Appropriation Goal

Under Provisions of Chapter 324.79 Code of Iowa, Marine Fuel tax funds may be expended for a variety of boating related capital projects. Funds are used for water access acquisition on a willing seller basis, development projects such as boat ramps and accesses, water safety stations, marinas and any other project which will improve water recreation. Beginning in FY99 these projects were funded from the Infrastructure Fund. In FY01 funding moved to the Environment First Fund. Marine Fuel Tax receipts are deposited to the Infrastructure Fund.

# Public Defense Capital

## Mission Statement

Provide leadership, planning, coordination, and units and equipment to protect life and property and come to the aid of Iowans in a time of need, to preserve peace and order, and to insure public safety for the citizens of Iowa.

support of the national military strategy during times of war and national emergency. The Iowa National Guard also participates in programs that constantly improve and add value to the communities of Iowa while serving as the embodiment of the citizen-soldier.

## Description

The Iowa Army and Air National Guard are part of the Iowa Department of Public Defense. Its 9,500 members are organized into approximately 100 federally-recognized organizations and units located in over 40 Iowa communities. The Guard is controlled by the Governor of Iowa during peacetime. Its units and members may be called to federal active duty in

Adequate armories and training facilities are essential to training and maintaining combat-ready organizations and units to accomplish our state and federal missions. The Capitols account provides the funding for infrastructure major maintenance and the state's portion of new construction projects. The Iowa National Guard has over 400 armories and training support facilities with approximately 3.5 million square foot of space.

## Appropriations Detail

### Ottumwa Armory Addition/Alteration

#### Rebuild Iowa Infrastructure Fund

#### Appropriation Description

The Ottumwa armory was constructed in 1959. It has had no major maintenance revisions to update it to current standards.

Approximately 2,100 square feet of space will be added to the current 20,512 square foot armory to provide adequate classroom, office, restrooms, and kitchen areas.

The Ottumwa armory supports the 833rd Sapper Company (formerly Company B, 224th Engineer Battalion). This unit recently returned from federal

active duty in Iraq with its former parent organization the 224th Engineer Battalion. The unit has been mobilized again is preparing form another tour of federal active duty in Iraq. They were reorganized as an engineer sapper company as part of the US Army modularity and transformation program that will reconfigure Army units into combat and support packages that will be interchangeable as the Army

combines these units to build division and brigade combat teams for combat. This armory alteration/addition supports the new unit organization.

The authorized strength of this unit is 104.

## Camp Dodge Armed Forces Readiness Center Addition/ Rebuild Iowa Infrastructure Fund

### Rebuild Iowa Infrastructure Fund

### Appropriation Description

The Camp Dodge Readiness Center funding request is required to provide for anticipated changes to construction criteria for the Camp Dodge Readiness Center. These must be paid with state funds.

100% federal funding of \$40,847,000 has been secured for the Camp Dodge Readiness Center project. This figure includes design, construction, and supervision, inspection, and overhead. The project has been moved forward by the Base Realignment and Closure Program for construction to begin in FY-06. It is 100% federally funded because it is located on federal property.

### STARCOMM (RIIF)

#### Rebuild Iowa Infrastructure Fund

#### Appropriation Description

Provide State of Iowa three fiscal year investment of \$5,200,00 from the Rebuild Iowa Infrastructure Fund and from the Endowment for Iowa's Health Restricted Capital Fund for the construction and alteration of the existing Western Iowa Tech Community College buildings at the Sioux City campus for the Starcomm project.

#### Appropriation Goal

Approp justification text:

The project will provide design, labor, materials, and equipment necessary to construct a new facility and renovate an adjacent building to house the Starcomm interoperable communications equipment and to provide an appropriate training campus to enhance student learning in the program areas of Emergency Dispatch, Emergency Disaster Management, Interoperability Communications and Information Systems Security.

Woodbury County was awarded \$6 million Interoperability Communications demonstration grant in 2003 from FEMA to help address communication deficiencies that exist during critical emergencies across

jurisdictional boundaries. This allowed the Tri-state Siouxland area to synchronize equipment, radio type, and frequency spectrum and operation procedures over a three county-three state area by erecting a series of towers and purchasing the needed equipment. However, this did not address the need for a facility to house a backup emergency operating center (EOC) and Homeland and Information Technology training. This facility will provide a public works infrastructure to house the existing Woodbury County E911 Communication Center, a Western Iowa EOC for real catastrophic events and pre-disaster training scenarios, the interoperability equipment provided through the Starcomm project, state-of-the-art classrooms and equipment to enhance student learning in the program areas of Emergency Dispatch, Emergency Disaster Management, Interoperability Communications, Information Systems Security and the Iowa Statewide Poison Control Center.

Space will be provided in this facility for the training of public/private safety personnel in the aforementioned areas, as well as, a myriad of modular training courses that will enhance their skills and abilities. The integration of training within this facility will allow a 'live' environment in order to prepare new public safety professionals on the equipment and procedures used

### Facility/Armory Maintenance (RIIF)

#### Rebuild Iowa Infrastructure Fund

#### Appropriation Description

The Iowa National Guard consists of approximately 9,750 soldiers and airmen organized in over 100 organizations, units, and activities statewide. Several of our armories and facilities are aged beyond the point of supporting adequate training for our soldiers. The maintenance backlog to bring these facilities to an acceptable state of operations is beyond our budget expectations. New facilities that will support our units well into the 21st century are the most cost effective alternative to dealing without outdated facilities.

Heavy reliance is placed on the Iowa National Guard to provide trained and ready units to mobilize to support national emergencies and disaster relief requirements as well as provide support when disasters and emergencies occur in the State of Iowa.

Federal funding for these major maintenance projects is available at approximately 50%/50% federal/state funding. State of Iowa funding is required to complete these necessary repair and replacement requirements. The projects may include but are not limited to armory renovations, restroom upgrades, repair of boilers and furnaces, repair of roofs, parking lot repair, and door and window repair and replacement.

## Facility/Armory Maintenance (RIIF) Financial Summary

### Camp Dodge Water Project - Phase 3 (RIIF)

#### Rebuild Iowa Infrastructure Fund

#### Appropriation Description

The Camp Dodge Water System Upgrade is a five-phase program scheduled for completion in FY-09.

The completed project expansion and renovation will provide a system that will meet safety and health regulations and provide adequate water supply and waste treatment for the expanding Camp Dodge Training Site use requirements.

Phase III will include replacement of some very old and deteriorated distribution system piping some of it dating to the origins of Camp Dodge nearly 90 years ago.

## Iowa City Readiness Center - Phase 4 (RIIF)

### Rebuild Iowa Infrastructure Fund

### Appropriation Description

The Iowa City Armed Forces Readiness Center will relocate five Iowa Army National Guard currently consolidated in a downtown Iowa City armory that was designed and constructed in 1937 to house horse-mounted cavalry units. The current facility contains 18,700 square feet and is inadequate to support the training, administrative, and logistical requirements of the units. The situation is further compounded by parking and access problems.

The readiness center will be located in the northwest quadrant of the US Highway 218 and Melrose Avenue intersection on the west side of Iowa City making it very accessible to unit members and visitors. The property has been secured and is owned by the State of Iowa for construction of this new readiness center.

It will contain approximately 80,000 square feet of space and house the offices, supply rooms and weapons vaults, kitchens and dining rooms, and classrooms. It will be a brick construction with standing seam steel roof.

The Iowa City Armed Forces Readiness Center will consolidate and support the following units:

Headquarters, 671st Troop Command

Headquarters and Support Company, 109th Area Support Medical Battalion

Company A, 109th Area Support Medical Battalion

134th Medical Company (Ambulance)

Company C, 1st Battalion, 168th Infantry

The combined authorized strength of these units is approximately 450 soldiers and civilians.

The units' wheeled vehicles and trailers will be located in adjacent motor pool storage areas.

## Iowa City Readiness Center - Phase 4 (RIIF) Financial Summary

## Waterloo Aviation Readiness Center - Phase 2 (RIIF)

### Rebuild Iowa Infrastructure Fund

#### Appropriation Description

The project will provide design, labor, materials, and equipment necessary to renovate and make a significant addition to the Waterloo aviation armory. The additional space will make it possible for the armory to fully accommodate the six units already assigned in the armory.

The existing armory was constructed in 1974 and designed to accommodate three aviation units. It contains 13,994 square feet of usable space. The US Army's aviation transformation has added three additional aviation units to the Iowa Army National Guard force structure and to the Waterloo aviation armory. The additional 20,000 square feet of space will enable the armory to accommodate the additional units and improve the existing unit facilities. Additional offices, supply rooms and vaults, locker rooms, and classrooms will be constructed. Existing offices, supply areas, classrooms, kitchens and dining rooms, and restrooms and locker rooms will be renovated and upgraded to meet current standards. The armory has had no major maintenance renovations since it was constructed.

The Waterloo aviation armory supports the following units:

Troop D, (Air Reconnaissance), 113th Reconnaissance, Surveillance, and Target Acquisition Squadron

Troop E, (Air Reconnaissance), 113th Reconnaissance, Surveillance, and Target Acquisition Squadron

Troop F, (Air Reconnaissance), 113th Reconnaissance, Surveillance, and Target Acquisition Squadron

Augmentation, 113th Reconnaissance, Surveillance, and Target Acquisition Squadron

Company B, 834th Combat Support Battalion (Aviation Support)

Detachment 2, Headquarters and Support Company, 834th Combat Support Battalion (Aviation Support)

Detachment 1, Company A, 834th Combat Support Battalion (Aviation Support)

The authorized strength of these units is 260 soldiers.

The units are part of the US Army's modularity and transformation program that will reconfigure Army units into combat and support packages that will be interchangeable.

### Camp Dodge Electrical Distribution System Upgrade/

Rebuild Iowa Infrastructure Fund

#### Appropriation Description

Provide State of Iowa contribution of \$526,000 for the completion of a multi-year continual process

renovation and upgrade of the outdated and deficient Camp Dodge electrical distribution system. The federal contribution to this project is \$2,099,000. This request is being made at this time to take advantage of a one-time \$13M increase in our normal Federal minor construction funds that will allow us to finalize upgrade projects such as well as provide for life safety considerations and requirements.

### Middletown Armed Forces Readiness Center

#### Rebuild Iowa Infrastructure Fund

#### Appropriation Description

The Middletown Readiness Center funding request is \$100,000 required to provide for anticipated changes to construction criteria for the Middletown Readiness Center. These must be paid with state funds.

100% federal funding has been secured for the Middletown Readiness Center project. This figure includes design, construction, and supervision, inspection, and overhead. It is 100% federally funded because it is a joint services project between the Iowa Army National Guard and the United States Army Reserve. The building will be owned by the Iowa Army National Guard.

This is one of the four Base Realignment and Closure Act construction projects that we secured this year.

### Newton Readiness Center Construction Design (Phase

#### Rebuild Iowa Infrastructure Fund

#### Appropriation Description

The Newton Readiness Center funding request is \$700,000 required for design of a new armory. \$1.5M of Federal matching funding will also be used for design of the project. This will be

Phase I of a three-phase construction program.

#### Appropriation Goal

The new Newton Readiness Center will replace the current facility that was constructed in 1950. We have secured property adjacent to the Iowa Speedway and other county/metropolitan operations south of the interstate in Newton. Modest remodeling was done to the current armory in 2007.

The current armory is simply an old facility that has outlived its ability to support our training and support requirements. The determination was made that we would be much further ahead in the long run to construct a new armory than do major renovations to the current armory. It is located near the city park south of downtown Newton. Access is difficult and parking is near non-existent.

The City of Newton is dealing very well with its recent economic issues. The city and area have had a National Guard unit for a number of years and the community has supported the units well. We see Newton as a viable location for a unit and readiness center for many years to come. The area recruiting base is excellent and Newton is the only National Guard community along the interstate corridor between Camp Dodge and Iowa City. We simply must maintain a unit presence in the community.

The total armory construction will be a three-phased project totaling \$8.2M. Phase I will be the SFY 2009 design, Phase II will be a \$3M state appropriation for construction in 2010, and Phase III will be a like \$3M state appropriation for construction in 2011.

The federal/state funding ratio is abnormal for this project because we need to construct a new armory now as opposed to putting more renovation dollars into an already 57-year old facility. We anticipate that it will be 10-15 years before we could secure federal funding for this readiness center project. The land has been procured and the community is very supportive of this project to go along with the other economic growth in the community.

The new readiness center will contain approximately 30,000 square feet of space a

### DPD-Facility Maintenance. VIFund.

#### Vertical Infrastructure Fund

#### Appropriation Description

Provide State of Iowa \$1.5 million investment for funding major maintenance projects at several state-wide Iowa National Guard readiness centers and facilities. The specific projects to be supported by this request include renovation of restrooms and classrooms at seven armories, the conversion of three inadequate indoor marksmanship ranges to classrooms at three armories.

#### Appropriation Goal

The maintenance backlog on these facilities is beyond our capability to bring them up to acceptable standards. The restrooms in the several armories are

totally inadequate in providing male and female facilities. Some do not have adequate showers. These improvements are required to meet unit-training requirements and account for the inclusion of females in armories that once only housed male soldiers. These restroom projects are essential to bringing these facilities into compliance with current standards.

50%/50% federal/state funding is available for all of these projects. The ratio may be 75%/25% depending on the individual armory circumstances. State of Iowa funding is required to complete these necessary repair and replacement requirements.

### DPD-Camp Dodge Water Treatment VIFund.

#### Vertical Infrastructure Fund

#### Appropriation Description

Provide State of Iowa contribution to provide for an expansion of the Camp Dodge Water System Upgrade.

The Phase I project included all design, materials and equipment, and labor for the construction of lagoons and force main, ground storage reservoir, booster station and an emergency standby generator. This project addressed significant safety and health issues. The project also provided replacement of old and undersized piping as well as increasing the fire flow to the southern parts of Camp Dodge that are highly populated with training facilities and soldier housing units.

The Camp Dodge Water System Upgrade is a three-phase program scheduled for completion in FY-09. The completed project expansion and renovation will provide a system that will meet safety and health regulations and provide adequate water supply and waste treatment for the expanding Camp Dodge Training Site use requirements.

Phase II of the Camp Dodge Water System upgrade includes replacement of the 90-year-old 1.5 million gallon water tank located at the intersection of Northwest Beaver Drive and Northwest 78th Avenue. Phase III will include replacement of some very old and deteriorated distribution system piping some of it dating to the origins of Camp Dodge nearly 90 years ago.

## Appropriation Goal

The original Camp Dodge water system was installed circa 1917 as infrastructure for the Camp Dodge Cantonment Training Center. Camp Dodge was a major United States Army training center for preparing soldiers to go to Europe during World War I. Other major additions were made to the system during World War II when the post was used as a major recruit induction center.

Very few upgrades and improvements have been made to the system through the years. Camp Dodge man-day utilization has grown significantly during the past two decades. A major US Army maintenance-training center and the federal Midwest Counter Drug Training Center have been established at Camp Dodge. They and the increased use of the camp by military and paramilitary units and organizations have stressed the water system beyond requirements.

The current system does not meet Environmental Protection Agency and Iowa Department of Natural Resources treatment output requirements. The camp has been cited for this deficiency. We are also required to monitor the water and post warnings about camp water consumption due to high concentrations of certain products in the water. The water meets all treatment requirements at the water treatment plant. However, the old water distribution lines throughout major portions of the post contain high levels of contaminants.

## Armory Maintenance (RestrCap1)

### Tax-Exempt Bonds Proceeds Rest

#### Appropriation Description

The Iowa National Guard consists of approximately 9,750 soldiers and airmen organized in over 100 organizations, units, and activities statewide. Several of our armories and facilities are aged beyond the point of supporting adequate training for our soldiers. The maintenance backlog to bring these facilities to a acceptable state of operations is beyond our budget expectations. New facilities that will support our units well into the 21st century are the most cost effective alternative to dealing with our outdated facilities.

Heavy reliance is placed on the Iowa National Guard to provide trained and ready units to mobilize to support national emergencies and disaster relief requirements as well as provide support when disasters and emergencies occur in the State of Iowa.

Federal funding for these major maintenance projects is available at approximately 50/50%. State of Iowa funding is required to complete these necessary repair and replacement requirements. The projects may include but are not limited to armory renovations, restroom upgrades, repair of boilers and furnaces, repair of roofs, parking lot repair, and door and window repair and replacement.

## Waterloo Aviation Readiness Center Addition/Alte

### Tax-Exempt Bonds Proceeds Rest

#### Appropriation Description

The project will provide design, labor, materials, and equipment necessary to renovate and make a significant addition to the Waterloo aviation armory. The additional space will make it possible for the armory to fully accommodate the six units already assigned in the armory.

The existing armory was constructed in 1974 and designed to accommodate three aviation units. It

contains 13,994 square feet of usable space. The US Army's aviation transformation has added three additional aviation units to the Iowa Army National Guard force structure and to the Waterloo aviation armory. The additional 20,000 square feet of space will enable the armory to accommodate the additional units and improve the existing unit facilities. Additional offices, supply rooms and vaults, locker rooms, and classrooms will be constructed. Existing offices, supply areas, classrooms, kitchens and dining rooms, and restrooms and locker rooms will be renovated and upgraded to meet current standards. The armory has had no major maintenance renovations since it was constructed.

### Spencer Armory Addition/Alteration (RestrCap2)

Endowment for Iowa's Health Restricted Capitals Fu

#### Appropriation Description

Provide State of Iowa investment of \$689,000 for the addition/alteration construction of the existing Iowa National Guard readiness center at Spencer. The

federal contribution to this project is \$795,000. The total project construction cost is \$1,484,000.

### Appropriation Goal

The project will provide design, labor, materials, and equipment necessary to renovate the Spencer armory. The project will include the modernization of the latrines and kitchen and abandonment and filling of the sunken mechanical room. It will also include upgrades of the armory electrical system, resurfacing of the military and civilian parking areas, repair of drainage issues on the site, and repairs to the building's exterior. All interior areas will be refinished.

The Spencer armory was constructed in 1957. It has had no major maintenance revisions to update it to current standards.

Approximately 2,100 square feet of space will be added to the current 15,502 square foot armory to provide adequate classroom, office, restrooms, and kitchen areas.

The Spencer armory supports Battery A, 1st Battalion, 194th Field Artillery. They is scheduled for reorganization as part of the US Army modularity and transformation program that will reconfigure Army units into combat and support packages that will be interchangeable as the Army combines these units to build division and brigade combat teams for combat. The armory will be assigned to a truck transportation company detachment and artillery fire support team in the transformation. This armory alteration/addition supports the new unit organization.

## STARCOMM (RestrCap2)

### Endowment for Iowa's Health Restricted Capitals Fu

#### Appropriation Description

Provide State of Iowa three fiscal year investment of \$5,200,00 from the Rebuild Iowa Infrastructure Fund and from the Endowment for Iowa's Health Restricted Capital Fund for the construction and alteration of the existing Western Iowa Tech Community College buildings at the Sioux City campus for the Starcomm project.

#### Appropriation Goal

Approp justification text:

The project will provide design, labor, materials, and equipment necessary to construct a new facility and renovate an adjacent building to house the Starcomm interoperable communications equipment and to provide an appropriate training campus to enhance student learning in the program areas of Emergency Dispatch, Emergency Disaster Management, Interoperability Communications and Information Systems Security.

Woodbury County was awarded \$6 million Interoperability Communications demonstration grant in 2003 from FEMA to help address communication deficiencies that exist during critical emergencies across

jurisdictional boundaries. This allowed the Tri-state Siouxland area to synchronize equipment, radio type, and frequency spectrum and operation procedures over a three county-three state area by erecting a series of towers and purchasing the needed equipment. However, this did not address the need for a facility to house a backup emergency operating center (EOC) and Homeland and Information Technology training. This facility will provide a public works infrastructure to house the existing Woodbury County E911 Communication Center, a Western Iowa EOC for real catastrophic events and pre-disaster training scenarios, the interoperability equipment provided through the Starcomm project, state-of-the-art classrooms and equipment to enhance student learning in

the program areas of Emergency Dispatch, Emergency Disaster Management, Interoperability Communications, Information Systems Security and the Iowa Statewide Poison Control Center.

Space will be provided in this facility for the training of public/private safety personnel in the aforementioned areas, as well as, a myriad of modular training courses that will enhance their skills and abilities. The integration of training within this facility will allow a "live" environment in order to prepare new public safety professionals on the equipment and procedures used

### Ottumwa Armory Addition/Alteration RC2

Endowment for Iowa's Health Restricted Capitals Fu

#### Appropriation Description

The Ottumwa armory was constructed in 1959. It has had no major maintenance revisions to update it to current standards. Endowment for Iowa's Health Restricted Capitals funding.

Approximately 2,100 square feet of space will be added to the current 20,512 square foot armory to provide adequate classroom, office, restrooms, and kitchen areas.

The Ottumwa armory supports the 833rd Sapper Company (formerly Company B, 224th Engineer Battalion). This unit recently returned from federal active duty in Iraq with its former parent organization the 224th Engineer Battalion. The unit has been mobilized again is preparing form another tour of federal active duty in Iraq. They were reorganized as an engineer sapper company as part of the US Army modularity and transformation program that will reconfigure Army units into combat and support packages that will be interchangeable as the Army combines these units to build division and brigade combat teams for combat. This armory alteration/addition supports the new unit organization.

The authorized strength of this unit is 104.

### Camp Dodge Electrical Distribution System Upgrade/

Endowment for Iowa's Health Restricted Capitals Fu

#### Appropriation Description

Provide State of Iowa contribution of \$526,000 for the completion of a multi-year continual process renovation and upgrade of the outdated and deficient

Camp Dodge electrical distribution system. The federal contribution to this project is \$2,099,000. This request is being made at this time to take advantage of a one-time \$13M increase in our normal Federal minor construction funds that will allow us to finalize upgrade projects such as well as provide for life safety considerations and requirements. Endowment for Iowa's Health Restricted Capitals funding.

# Regents Capital

## Mission Statement

The State Board of Regents was created in 1909 to coordinate and govern the three State institutions of higher education. The School for the Deaf and the Iowa Braille and Sight Saving School were placed under its jurisdiction at a later date. The board is given by statute the authority to "have and exercise all the power necessary and convenient for the effective administration of its office and of the institutions under its control...". In addition, it is given many specifically enumerated powers. The Board of Regents consists of nine members appointed on a bipartisan basis for six-year terms. The terms are staggered with three appointments being made every two years by the Governor with approval of two thirds of the Senate.

## Appropriations Detail

### Enrich Iowa

#### Rebuild Iowa Infrastructure Fund

#### Appropriation Description

To provide resources for structural and technological improvements to local libraries.

#### Appropriation Goal

This pass-through funding for eligible public libraries has come from the Rebuild Iowa Infrastructure fund

since FY02. It is formula-based and is distributed in connection with the Open Access and Access Plus components of the Enrich Iowa program. Because this is RIIF funding, it must be used to provide support for structural and technological improvements in eligible libraries. These improvements include purchase of computer hardware and software, creation of CD and DVD collections, addition of book drops and other updates to the library building. Nonprint resources such as books on CD and movies on DVD make up more than 25% of the check-outs of public libraries.

## Enrich Iowa Financial Summary

## Iowa Learning Technologies

### Technology Reinvestment Fund

#### Appropriation Description

This is a pilot grant program to encourage innovation,

increase student achievement, and ensure that technology is used on the basis of best practice. It is also designed to:

- Obtain valid and reliable evidence of the impact on student engagement and achievement from the use of

technology, which may include, but are not limited to a one-to-one initiative,

- Further demonstrate successful district-to-vendor relationships and possibilities,
- Provide for development of individual education plans for students (if appropriate to the project),
- Identify local district educational and fiscal planning and implementation strategies,
- Gain a better understanding of the current status of technology in Iowa schools, and

- Encourage the effective integration of technology with teacher training and curriculum development to establish successful research-based instructional methods.

**Appropriation Goal**

The goal for the pilot grant program is to provide results and additional information necessary for the general assembly to consider implementation of a statewide technology initiative.

### Iowa Veterans Cemetery

#### Iowa Veterans Trust Fund

#### Appropriation Description

IOWA VETERANS CEMETERY

#### Appropriation Goal

The Iowa Department of Veterans Affairs (hereinafter referred to as IDVA) has been given the authority

under Senate File 2298 to develop a State Veterans Cemetery. This will entail a 40-50 acre gravesite area that will have a capacity for 26,000-32,500 veterans and their dependents to be buried. The state has recently received a donation of 100 acres. The federal Department of Veterans Affairs (DVA) will reimburse the State of Iowa for the development and construction costs of the cemetery with the commitment from the State of Iowa that they will maintain the cemetery according to the federal standards at the State's cost.
